

## **Mentor-Mentee Programme**

**for**

### **Masters in International Business**

The Master in International Business Program is designed to bring together students and professionals that share common professional interests. This mentoring relationship will enable business students to be better supported as they explore varied career opportunities and assist them as they steer those early years of professional life.

Most individuals can think of people in their lives, more experienced than themselves, who trained them something new or simply expressed an interest in their development as a person and professional. They helped them negotiate an uphill path or find an entirely new path to a goal in their academic, career or personal lives. They pointed out talents that individuals hadn't noticed in themselves and stimulated ideas about what they might be able to accomplish.

***Every block of stone has a statue inside it and it is the task of the sculptor to discover it.***

- Michelangelo

#### **Objective of the Program -**

1. To make a difference in a student's life as a role model and prepare them for current challenges and future plans.
2. Prepare students in the areas such as job search strategies, industry knowledge, career paths, time management, or balancing work and family life.
3. Equip students with the tools necessary to perform in their highest capabilities

Give students an opportunity to meet someone who's "been there" and can relate to their life journey.
